

Recent Dates in Bible Prophecy

Author: Marty Purvis

This video series covers prophecies for the book of Daniel and Bible calendars to identify important prophetic dates. Using dates that are established from the Jubilee Calendar and prophecies in Daniel and Revelation, Larry defines important dates that have occurred in the past two centuries. These dates have to do with the judgment of mankind and the important concept of when a day equals a year in Bible prophecy. Important years identified include 1798, 1844, and 1994.
